**DON'T WAIT UNTIL YOU HAVE A FIRE
GET**

THE NEWARK FIRE EXTINGUISHER

(Patented Aug. 4, 1903.)

AND BE READY.

Simply inverting the extinguisher automatically starts the chemical action and throws a powerful stream of fire destroying liquid which can be directed at the heart of the fire from a safe distance.

The liquid is a mixture of carbonic acid gas and water, and is forty times more effective than water alone. Instantly extinguishes any fire, blazing oil, tar, gasoline, etc.

Can be operated by anyone without previous experience and is always ready for instant use—no waiting.

ALDERNEY PATENT CALF

IT IS superior in wear, brighter, more pliable and of greater tensile fibre strength than any of the foreign brands, which are dry and stiff, consequently wrinkle in wear.

THE success of American leather helped to make American-made shoes popular throughout the entire universe.

SHOES made of **ALDERNEY Patent Calf** will increase your patent leather business.

*Eclipse Tanning Company,
Makers of Eclipse Patent Calf,
Newark, N. J.*

**In universal demand
in America and Europe.**

When your patent leather stock is made up from ECLIPSE COLT you have less trouble in keeping it bright and snappy, less complaint, returns and exchanges, and more satisfied customers and more profit.

THE BRADSTREET COMPANY gathers information that reflects the condition and controlling circumstances of every seeker of mercantile credit. Its business may be defined as: "Of the merchants, by the merchants, for the merchants." In procuring, verifying and promulgating its information, no effort is spared, and no reasonable expense considered too great that the results may justify its claim as an authority on all matters affecting commercial affairs and mercantile credit. Its offices and connections have been steadily extended, both on this and other continents, and it furnishes information concerning mercantile persons throughout the civilized world.

Subscriptions are based on the service furnished, and are available only by reputable wholesale, jobbing, and manufacturing concerns, and by responsible and worthy financial, fiduciary and business corporations. Specific terms may be obtained by addressing any of the Company's offices.

Newark Evening News

THE NEWARK EVENING NEWS is a strictly up-to-date, high-class two-cent evening newspaper with a circulation of 60,000 copies, largely exceeding that of any other newspaper in New Jersey. It presents an exceptional opportunity to advertisers to reach through one medium the people of a city numbering over 280,000 inhabitants and suburban communities numbering about 150,000 more. It thoroughly covers the field and is delivered by complete carrier system in nearly every home in Newark and the surrounding towns, making it the medium absolutely indispensable for all who wish to reach the buying classes. ❀ ❀ ❀ ❀ ❀ ❀

New Jersey Freie Zeitung

NEW JERSEY'S OWN

GREAT GERMAN DAILY.

NEWARK'S ONLY MORNING PAPER.

(ESTABLISHED 1858.)

DAILY AND SUNDAY for nearly fifty years, the "Freie Zeitung" has been an ever welcome morning visitor in the homes of the thousands of well-to-do German-Americans throughout this city and county.

As a first-class family newspaper, with a capable staff, and the Associated Press telegraph and cable service, it has a powerful influence, its editorials and news matter being widely quoted and copied by other newspapers.

As an advertising medium, the high quality of its circulation, and the fact of its having an exclusive field, produces excellent results for stores, real estate agents, banks, and every good, honest proposition, as its perpetually well filled advertising columns plainly testify.

Newark is a German-American city, and any advertiser who attempts to cover it without using the German-American newspaper deliberately cuts himself off from the business of a very large proportion of the population.

Say?—If a fellow appropriates an-
other's ideas, and sells them at
"Cut rate prices," would we be
justified in dubbing him a thief or
only a "Bunch of Gall."

Imitation flatters the imitators wonderfully where he is't known. Apes are great imitators, "Which is why I enquire" if all imitators are apes. There is scarcely an improvement in trowels in the past 25 years, no matter who presents them, but what is the product of my brain, but the theft is the other fellows' product.

Sincerely yours,
JAMES E. BILLINGS.

MARKS ARTIFICIAL LIMBS

WITH RUBBER HANDS AND FEET

The Most Comfortable, Durable and Natural.

Although a man may lose both legs, he is not necessarily helpless. By using artificial legs with Marks' patent rubber feet attached, he can be restored to usefulness. One of these engravings is from an instantaneous photograph of a man ascending a ladder. He has two artificial legs substituting his natural ones which were crushed in a railroad accident and amputated. With his rubber feet he can ascend or descend a ladder, balance himself on the rungs, and have his hands at liberty. He can work at a bench and earn a good day's wages. He can walk and mingle with persons without betraying his loss; in fact he is restored to his former self for all practical purposes. With the old method of complicated ankle joints, these results could not be so thoroughly attained.

Over 32,000 in use, scattered in all parts of the world. Many of these have been supplied without the wearers presenting themselves to us, simply sending measurements on a measuring sheet which any one can easily fill out.

Received 44 Highest Awards.

Purchased by the United States Government and many Foreign Governments.

A MANUAL of Artificial Limbs and illustrated measuring sheets sent free upon application.
